7. Three RECREATIONAL BOATING safety issues

This is a Federal Pass-Through 'Recreational Boating Safety Grant'. The purpose of the grant is to promote boating safety and to decrease the number of accidents, injuries, and fatalities on U.S. waters. Clearly identify three BOATING safety issues that affect recreational boaters in your jurisdiction. Your answer to this question will be referenced throughout this grant application.

1) Consistently Hazardous Conditions:

Morro Bay Harbor Department's jurisdiction is comprised of some of the most notoriously rough waters in California, with ~150 days per year of small craft advisory conditions and an average of ~30 days per year of hazardous harbor entrance conditions including large breaking surf in the navigational channel.

In addition, by way of mutual aid to neighboring jurisdictions, the Harbor Patrol responds to approximately 40 square miles of ocean area, including approximately 25 miles of rugged coastline, assisting the Coast Guard, State Parks, Cal Fire and County Sheriffs.

With ~450 year-round home ported vessels and ~3200 recreational vessels utilizing our public launch ramp in 2024, a great number of boaters and ocean users are potentially put in harm's way every year.

With no commercial tow service in 100 miles of either direction, we are also the only towing vessels to assist broken down boaters or vessels in distress in our jurisdiction.

2) High Volume of Recreational Water Craft

With annual visitation of approximately 1.3 million people for a town of 10,000 residents, Morro Bay sees a high volume of inexperienced recreational users.

We have recreational fishermen heading offshore, as well as many kayakers and paddle craft in the bay or nearby ocean waters.

Our strong tides and oftentimes poor sea conditions can get the better of an inexperienced or uneducated boater and quickly turn into an emergency response situation.

With five kayak rental companies and two electric boat rental businesses, we are inundated year round with inexperienced boaters and paddle craft.

For example, on Saturday, August 3, 2024, our Officers responded to two separate incidents of rental electric boats aground in the harbor, three capsized kayakers in the bay and 10 enforcement contacts with SUPs and kayakers regarding lifejacket carriage requirements.

3) Deficiency in Understanding of Boating Safety Laws and Best Practices

Many recreational boaters are unaware of state and local laws on the water, even for things as simple as lifejacket and boater card requirements. We make it a priority to educate, warn and advise these boaters and if necessary, take enforcement action to ensure safety and compliance. We now have two different DBW supplied PFD loaner stations with signage available at our two most utilized launch locations. Despite these efforts, we conduct an average of four to six safety enforcement contacts regarding PFD carriage per day.

8. Inventory

List all patrol boats, PWCs and inflatables in your current inventory (Local and State owned). Include boats awarded but not yet received yet.

Year	Make	CF Number	How many hours/year is this used?	What waterbodies is it used on?	Will this boat be surplusd if awarded a new vessel?	Was this vessel funded by a DBW grant?	Is this vessel operational ?	Is this vessel used for anything else besides patrolling. If so, explain.
2002	Radon	4398 XC	1,000	Morro Bay Harbor and Pacific Ocean	No	Yes	Yes	Marine firefighting, search and rescue, environmental response
2004	Pacific	4662 XC	400	Morro Bay Harbor and Pacific Ocean	No	Yes	No	Search and rescue, environmental response
2013	Radon	5532 XC	800	Morro Bay Harbor and Pacific Ocean	No	Yes	Yes	Marine firefighting, search and rescue, environmental response
2018	Kawasaki	5929 XC	100	Morro Bay Harbor and Pacific Ocean	No	Yes	Yes	Search and rescue
2018	Kawasaki	5930 XC	100	Morro Bay Harbor and Pacific Ocean	No	Yes	Yes	Search and rescue

9. Project Type

Are you requesting a new Patrol Boat/PWC or Misc. Equipment.?

- New Patrol Boat/PWC - see definition below
- Equipment / Repairs

NOTE: A "Patrol Boat" is defined as "A Department of Parks and Recreation, Division of Boating and Waterways approved, registered vessel (with or without trailer and/or outboard motor) purchased for use in boating safety and law enforcement activities." **VERIFY THAT YOUR REQUEST IS CORRECTLY CLASSIFIED.** Failure to correctly classify may result in disqualification of your grant application.

* All items purchased with funding provided by the Division of Boating and Waterways are for the exclusive use of the Boating Safety and Enforcement Unit.

Misc Equipment Instructions

PLEASE READ THE FOLLOWING CAREFULLY

ENTER INFORMATION IN THIS SECTION ONLY IF YOU SELECTED 'MISC. EQUIPMENT' AS A PROPOSAL TYPE

IF YOU DID NOT SELECT 'MISC. EQUIPMENT' AS A PROPOSAL TYPE, CLICK ON THE NEXT TAB TO NAVIGATE TO THE NEXT SECTION

Misc. Equipment Items

11. Describe what you are requesting. You may request only FIVE ITEMS TOTAL (patrol boat and equipment). You may group "like items". "Like items" are related items that work together. You need one to work with the other. Examples of "like items" include a 'FLIR and delivery', 'replacement boat seat and tax' or 'GPS and screen'.

DBW may fund up to 50% of the total cost of fire suppression equipment.

NOTE: Supplies and consumables (i.e: rope, water bottles, cleaning supplies, hardware) are not funding priorities.

Item / Group Name	Cost	Quantity	Total	Priority	List specific items that are in the grouped 'like' items. Include itemized list with cost and quantity.	Attach one quote for each item in this section
Outdrive equipment replacement	32,689.96	1.00	32,689.96	First	2 MerCruiser outdrive at \$11,063.16 per unit. 2 MerCruiser transom assemblies at \$5,371.45 per unit	45776_026_Grant_quotes.pdf
TOTAL			32,689.96			

Misc. Equipment Items Questions (Outdrive equipment replacement)

11. Item Details

- 11 a. Is this equipment general all-purpose gear? NOTE: person-specific Yes No and fitted items will not be funded.
- 11 b. Describe exactly what is being requested and how this equipment will help mitigate the recreational boating safety issues you identified in Question 7. If the requested quantity is more than one for any item, explain the need for multiple items. (max. 2000 characters)

Morro Bay Harbor Department is requesting \$32,689.96 to purchase two replacement transom assemblies and two outdrives for our 26' Radon (CF 4398 XC) patrol vessel. This vessel is one of the department's primary enforcement and search and rescue assets conducting the most patrol hours of our fleet. The current outdrives and transom assemblies have been deemed un-serviceable by our department's mechanic due to significant corrosion from electrolysis. Utilizing this vessel for emergency response in rough open water is not recommended at this time. Our request is for two of each item as the vessel is twin engined and both outdrives and transom assemblies require replacement due to the corrosion.

Our main fleet of twin engine vessels is imperative to our ability to safely respond to the volume of calls and issues from the recreational boaters and other users of the often dangerous waters in and

adjacent to our jurisdiction. Morro Bay Harbor Patrol conducted ~45 search and rescue cases in 2024 with the majority occurring in open water or in the surf zone. With the limitations of the vessel in question, open-ocean response is hampered during maintenance period of our now primary vessel.

Due to the fact that waters in our jurisdiction can see a large volume of inexperienced or under-educated boaters of all types, the safety of these boaters is a high priority and we strive to ensure their safety through heavy preventative public contacts, including education, equipment and operation violation enforcement. We work in conjunction with the US Coast Guard to enforce safety and other infractions that would potentially lead to situations threatening the loss of life and/or property. Having this vessel back in full service with the replacement equipment requested will allow us to continue to make these preventative educational and enforcement contacts year round.

11 c. Describe any negative impacts to boating safety and/or boating enforcement if your agency does not receive its requested grant award.

Without the replacement of the requested outdrive equipment, search and rescue and enforcement operations will be hampered. Furthermore, during maintenance periods for our now primary vessel, some search and rescue missions may go without Harbor Patrol response. Some of the maintenance windows for our now primary response vessel can be planned around low traffic times of year, but there are always unexpected break downs which can take a significant amount of time for repairs. Our department is a full-time, year-round boating safety and enforcement unit that the public relies on for well-trained and well-equipped first responders to provide assistance at all times.

As stated earlier, the waters of our jurisdiction see ~3200 annual recreational vessel launches, 450 full time recreational vessels in the harbor, hundreds of transient vessel visits and thousands of other small paddle craft and users on the water annually. This means **any** break in our ability to conduct **all** aspects of our mission could put lives at stake.

Morro Bay Harbor Department is not eligible and/or competitive for many Federal or other funding resources such as the Homeland Security Stonegarden grants because our boating safety officers are not armed, fully-sworn peace officers. Furthermore, the small size of our department and harbor and the lack of significant commercial shipping activity and other security concerns is also a limiting factor in the types of funding we can receive.

11 d. Classify this request

Classify this request by choosing one of the following options and present a strong justification for the request

- "Critical" (operations would cease without it)
- "Increased efficiency" (if it would save staff time, identify how much time)
- "Convenience" (it would make life a little easier)
- "Protection" of existing equipment (ex: shade tents, hoists to get the vessels out of the water, etc. to extend longevity)

Justify your classification of this request. (max. 300 characters)

Without the replacement of the outdrive equipment on this vessel, our patrol fleet will be down to one all-conditions capable vessel with no suitable spare for maintenance or break downs. New equipment ensures safe, rapid response times, protects public safety, and maintains operational readiness.

Percentage of time on the water this equipment will be used for:

Activity	Percentage
Boating Safety Activities	65

Exhibit G - BOATING SAFETY AND ENFORCEMENT EQUIPMENT GRANTEE APPLICATION

Search and Rescue Activities	25
Other Activities	10
TOTAL	100.00

List any other activities this equipment will be used for: (max 300 characters)

The vessel this equipment is requested for is occasionally used for environmental and wildlife assistance as well as junior lifeguard activities. This vessel is also used for A-B tows in our harbor as there are no vessel assist services in Morro Bay.

- 11 e. If you are not awarded your full request, would your agency be able to supplement the difference? Yes No

If yes, what percentage can you supplement? 10

11 f. What other capabilities exist in your region for this equipment? Justify why it is not feasible to borrow this equipment from a neighboring agency.

Morro Bay Harbor is isolated along the Central Coast of California with the closest safe harbors being 100 miles to the north or south. While Morro Bay does have an active Coast Guard station, their mission set deviates from Harbor Patrol's enforcement of California boating law and regular patrol of our jurisdiction. As a Federal agency, Coast Guard is not able to lend any asset to Harbor Patrol.

Morro Bay has a large Fish and Wildlife vessel docked in the harbor and occasionally staffed with Wardens. Those Wardens' mission set is far different than Harbor Patrol's and while they are willing to assist occasionally, this can not be expected often. Fish and Wildlife is also unable to loan equipment to Harbor Patrol as this has been attempted in the past.

Morro Bay also lacks any form of commercial towing services. This leaves Harbor Patrol to take on this roll, which is critical to assist and aid recreational boaters.

11 g. How and why was this particular model selected? Explain if this is standard equipment or do you need something specialized for your waterbody to meet your agency's needs? List less expensive models considered and explain why they are not being requested. List other funding sources available to your agency that could be used to purchase or partially purchase this equipment.

Harbor Patrol selected MerCruiser brand equipment because it is a direct replacement of the OEM equipment installed on our patrol boat. Also, the fact that MerCruiser brand parts are off the shelf standard equipment used on thousands of boats state wide meaning the purchasing cost is lower then specialized equipment and service parts are readily available.

Harbor Patrol is able to obtain MerCruiser parts and equipment at a discounted price due to our purchasing agreement with Brunswick, MerCruiser's parent company, for materials and parts for our harbor's day to day operations.

Morro Bay is not eligible and/or competitive for many federal or other funding resoureces such as the Homeland Security grants as our boating safety officers are not armed, fully-sworn peace officers. Furthermore, the small size of our department and harbor and lack of significant commercial shipping acitivity and other security concerns is also a limiting factor in the types of funding we can receive.
